

Professor Lyrical List of Helpful AI – See at <https://www.professorlyrical.com/pro-ai>

AI Tool	Website	Key Features
ChatGPT	https://chat.openai.com/	Advanced language model for text generation, conversation, and task completion across various domains – getting more like Poe by the day, see below for more
Civils.ai	https://civils.ai/	Specialized AI for construction data extraction, reporting, and Building Information Modeling (BIM)
Claude	https://www.anthropic.com	Versatile AI assistant for text generation, analysis, and creative tasks with strong ethical considerations
Curipod	https://curipod.com/	AI-driven platform for creating customized, interactive lessons with text, images, and activities tailored to students' needs
DALL-E	https://openai.com/product/dall-e-2	AI-powered image generation from textual descriptions, useful for creating visual aids
Deep AI	https://deepai.org/	Suite of AI tools including image generation, enhancement, and analysis
Eduaide.AI	https://www.eduaide.ai/	AI-powered platform for creating lesson plans, teaching resources, and assessments
Fliki	https://fliki.ai/	Text-to-video tool for educators to create engaging, personalized visual content
Google Gemini	https://gemini.google.com	Multimodal AI model capable of understanding and generating text, images, and audio
Magic School AI	https://www.magicschool.ai/	Suite of AI tools for educators including lesson plan creation, student feedback generation, and IEP writing
Perplexity	https://www.perplexity.ai	AI-powered search engine designed to find and summarize web content with citations
Pi	https://pi.ai	Conversational AI with a focus on open-ended dialogue, emotional intelligence, and personalized interactions
Poe	https://poe.com	Platform aggregating multiple AI chatbots (including ChatGPT and Claude) with custom bot creation capabilities – this platform does what this chart does (lists lots of other AI and lets you access them)
SUNO	https://suno.com/create	AI-powered tool for creating full songs, including lyrics and music, potentially useful for music education and creative projects

Note: Features and capabilities of these tools may change over time. Always check the official websites for the most up-to-date information. AI changes incredibly quickly. PRO (and my AI – shout out to Claude!)
